

Sprint 2 Report

Time2Sleep

The Dream Team

August 27th, 2015

1 Actions to Stop Doing

- Make a customized sound for user notification
- Develop iOS version of app
- Decided not to use pop-up notification (using text messaging instead)

2 Actions to Start Doing

- Start making user profiles
- Finalize UI: focus on graphics, make the app pleasing to the eye
- Work on project deliverables

3 Actions to Keep Doing

- Implement the notification in the form of a text message
- Continue adding to alarm functionality - this included continuous debugging, along with conversions dealing with military time
- Clean up structure/functions

4 Work Completed/Not Completed

4.1 Completed

- Added option to choose when to get notification
- Option for custom message added, and default message set

- Menu with background
- Saved user profiles

4.2 Not Completed

We completed all high priority work and left out various low priority ideas.

5 Work Completion Rate

Total number of user stories completed during sprint 1 : 1

Total number of hours worked during sprint 1: 30

Total days during sprint 1: 13
